

GirlzClub report 5th May 2022 – Jocelyn Close

Period February 2022 – April 2022

The highlight of last term was our ice skating trip to Guildford Spectrum. This was funded by the girls through the monies raised at the Christmas fayre. It was really successful demonstrated by the fact that at the end of the two hour session all of the girls could get around the rink, even though many never having skated before and most of the girls did not want to leave.

Cooking was a main activity last term as the girls love it and want to cook as much as possible. Each time they cook they are encouraged to put the recipe in to their home made recipe books to grow a lasting book to use in the future.

Mother's Day and Easter featured last term too. Cards and gifts were made for mum and we had the most successful session blowing eggs and decorating them. None of the girls (nor the volunteers) had done this before. The eggs were coloured and bejewelled and looked amazing and could be hung up at home.

On the final session of term Jo Sprag from Escape2Art came in and ran an art class where the girls created a canvass in the theme of Yvonne Coomber. The outcomes were terrific and looked amazing, so good they may be put up in the Centre.

We ran another questionnaire to get feedback. The results from this were published earlier this term.

Going forward.

A trip to an outward bound centre is planned for the end of May, a project with men in sheds is in the pipe line and a professional Pilates teacher will be coming in June to do some Pilates with the girls and to talk to them about staying fit and healthy. Talking points this term will be boys and relationships. Tracy and I need to discuss how we will bring in the current year 6 girls who are presently at Hale School.
